AN INSPECTION INVITED. Hongkong, 1st March, 1906.

A WONDERFUL DISCOVERY.

This is the result of research and experiment, when all nature, so to speak, is ransacked by the scientific method for the purpose of discovering the most perfect and useful substances for the relief of human suffering.

Induced in the past century, and among the many important discoveries in medicine comes that of Therapion, a powerful and reliable Patent Medicine, ever introduced, and has, we understand, been used in the Continental Hospitals by Liebig, Kossel, Liebig, Velpaus, Malsoume, the well-known German authorities in such matters, including the celebrated Lallemand, and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of these diseases has been the fennel plant, a plant which has been the object of search of some of the most famous minds, and far beyond the mere discovery of a remedy so potent as to relieve the most violent cases of the confined and in the one case, and in the other to effectually speedily and safely to expel from the system without the aid of even the knowledge of a second party, the most powerful and reliable of medicines, the Therapion, has been discovered, and it is now in our power to prove that it is destined to cast into oblivion all those questionable remedies that have formerly been the sole reliance of medical men.

Therapion may be obtained in England, direct from the proprietor, and of the proprietor, India, China, Japan, &c., not even excluding such remote districts as Central Africa, the Zululand, St. Helena, &c. Diamond Fields Advertiser, Kimberley.

SELF CURE NO FICTION! MARVEL UPON MARVEL!

NO SUFFERER NEED NOW DESPAIR, but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily, and economically cure himself without the knowledge of a second party. By the introduction of

THE NEW FRENCH REMEDY THERAPION.

A complete revolution has been wrought in the department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1—A Sovereign Remedy for discharges from the urinary organs, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—A Sovereign Remedy for primary and secondary skin eruptions, ulcerations, pains and swellings of the joints, and all those complaints which mercury and calomel are popularly but erroneously supposed to cure. This preparation purifies the whole system through the blood and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3—A Sovereign Remedy for colic, cholera, and secondary vitality, sleeplessness, disaste and incapacity for business or pleasure, love of solitude, bleeding, indigestion, pains in the back and head, and all those disorders, resulting from early error and excess which the faculty so perilously ignores, because so important to cure or even relieve.

THERAPION is sold by principal Chemists throughout the world. Price in England \$9 & 4d. In ordering, state which of the three numbers required, and observe that the word "THERAPION" appears on British Government Stamp (in white letters on a red ground) affixed to every package by order of His Majesty's Licensers, Commissioners, and without which it is a forgery.

## HOW RUSSIAN MUTINEERS WERE EXECUTED.

AN OFFICER'S PITIFUL STORY.

The following is an extract from a letter, written by an eye-witness of the execution at Raza of mutinous sailors on board the *Pamiat Azova*. After describing the blank dismay of the condemned men when they heard the decision of the Court, and their urgent prayer to be shot instead of hanged, the writer—a Russian officer—continues:—

Never shall I forget those men, their contrition for what they had done and their hatred for the agitators who had led them astray with all kinds of extravagant promises, and escaped scot free, leaving the simple sailors to die. After the court-martial they were taken into a cell to exchange their uniforms for plain clothes. The poor fellows protested that they wished to die as sailors, and on being told that they had forfeited their right to wear the Tsar's uniform, many, who had heard their death sentences in calmness, burst into tears. Neither did they wish to have their hands bound behind their backs, and begged to be allowed to die with their eyes unbound. Only this last request was granted them.

Quickly they marched out to the execution ground, facing those who were to shoot them, with the silent obstinacy of their present nature. Some, it is true, tried to sing, but their voices faltered and broke in the evening air. They took leave of their executioners, crying "Farewell, farewell!" and then of one another, kissing in our Russian fashion. The Pope (Orthodox priest) went before the rows of men, holding out the cross, which they all kissed. When their sentence was being read out they interrupted, crying "Dovolno! Dovolno!" (Enough! Enough!). We know well what crime we have committed. The broad Russian nature was uppermost, even at that tragic moment. Some called out to those who were to shoot them, "Measure well, brethren! Measure at our very hearts, and do not miss your mark!"

The volley was fired. One lingered a moment, writhing in death agony; others had to be killed by the soldiers, who put an end to their misery by blowing their brains out. A quarter of an hour later, their bleeding corpses were carried away to be buried in the waves.

The Central Revolutionary Committee, as you know, denied having anything to do with the Stolypin outrage; and this is true, as the doctors who examined the body of one of the assassins, killed by the bomb, found a piece of paper in the stomach which proves that another party is responsible for the act. The force of the bomb had driven the contents of the man's pocket-book into his stomach.—P. M. G.

## BUTTER INQUIRY.

FIRMS WHICH TEACH ADULTERATION.

The Select Committee on the Butter Trade, who were appointed last March have produced a Blue-book of much interest and importance.

Dealing first with "natural butter," the pure article, the committee say that they have no evidence to indicate that the existing law—which provides that butter containing more than 16 per cent. of moisture shall be presumed to be adulterated—is insufficient to prevent fraud, and therefore they do not suggest any amendment of the law as to moisture. Nor do they think it necessary to make any recommendations on the use of colouring matter.

## WHAT IS BUTTER?

"What is Butter?" is almost as difficult a problem as "What is Whisky?" The committee tackled the mysteries of "milk-blended butter"—a product which has been the subject of much legislative effort—and think it would not be desirable to prohibit its sale, as it meets the wants or suits the tastes of a certain section of the community.

But they consider that it is not butter, that it and other substances (not being margarine) containing butter fat should only be allowed to be manufactured for sale under a special name and regulations approved by the Board of Agriculture; that the factories where it is made and the wholesale dealers who sell it should be registered; and that when sold by retail it should be delivered to the purchaser in a wrapper approved by the Board of Agriculture.

## ADULTERATION TAUGHT.

The committee find that in certain factories fat not derived from milk is added to the butter, and the mixture is then sold fraudulently as pure butter. The committee go so far as to declare that

"certain firms are engaged in the business of teaching occupiers of factories how to adulterate butter" with these non-lactal fats, and it is done so cleverly that analysts are often completely baffled.

The committee therefore press for machinery which would put the law into operation against such practices.

Mixtures of butter and non-lactal fats are made in Holland and imported into England from Holland; and in this particular direction the committee think the responsibility should lie on the importer, and that the penalties should be increased.

## MARGARINE: THE INCREASE.

The trade in margarine, the only butter substitute referred to in the evidence, is admitted to be a legitimate trade, and the committee add that "it is evidently a staple article of food, and the trade is increasing."

The committee think it undesirable that fancy names, or descriptions referring to butter or anything connected with the dairy industry,

should be applied to margarine, for "it is clearly in the interest of fair trading that the distinction between butter and margarine be kept clear."

The committee accordingly recommend that that word, margarine in black, solid capital letters, not less than half an inch square, shall appear on the wrapper when it is handed to the purchaser; that no fancy name referring to butter or to the dairy industry should be permitted; and that if any fancy name is used, the word margarine shall be prefixed or affixed to the name in letters of the same size, colour, and type.

## RECOMMENDATIONS.

The committee are convinced that the law controlling the trade in butter and butter substitutes requires strengthening, and their recommendations, in addition to those mentioned above, include these:

That butter factories should be registered, and that inspectors of the Boards of Agriculture and local authorities should have power to enter any premises where they believe butter is made, etc.

That the addition to butter, at any stage of manufacture, or fat, not derived from milk be prohibited.

That margarine shall not contain more than 16 per cent. of water.

That nothing shall be sold as butter which contains more than 16 per cent. of moisture.

That steps should be taken to bring about international agreements as to the prevention of adulteration.

That substances other than butter (not being margarine) containing butter fat should be sold, with a limit of 24 per cent. of moisture, under a name approved by the Board of Agriculture, and that the wrapper bear a description of the article, under conditions similar to those applying to margarine.

## THE NEW FRENCH REMEDY

TRADE MARK

THERAPION

This successful and highly popular remedy, used in the Centennial Hospital by Ricord, Hottel, Volp, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto supplied.

THERAPION No. 1 is a

short-time, often a few days only, removes all discharges from the urinary organs, effectively suppressing the action of the ureters, and thus preventing the formation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and all diseases for which it has been so much a failure to employ mercury, arsenic, or other drugs, the use of THERAPION No. 1 is a

sure and infallible remedy, and should be used in all cases of these diseases, and in all cases of general debility, and in all cases of nervous exhaustion, impaired vitality, prostration, and all the attendant consequences of such errors, excesses, and debility.

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief—as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The remedy known as

## WAMPOLE'S PREPARATION

is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least, and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be plain to everybody. It is beyond price in Anemia, Insomnia, Weakness and lack of Nervous Tone, Poor Digestion, Wasting Diseases, La Grippe, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfé, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. Effective from the first dose. "You cannot be disappointed in it." Like all good things it is imitated. Sold by chemists throughout the world.

## THE SHANGHAI DOCKS.

Another important phase in the history  
of the Shanghai Dock Co. will be marked in  
the sale—if the proposal is carried out—of  
a portion of the properties owned by the  
Company in Shanghai. Our telegram to-  
day announces the fact that a meeting of  
shareholders of the Shanghai Dock and  
Engineering Co., Ltd., has been called for  
the 1st November to consider a proposition  
that had been received by the Directors for  
the purchase of two separate lots of property  
at Hongkew and Pootung owned by the Com-  
pany and considered disposable without pre-  
judice to the expanding business of the ship-  
repairing and building yards in the Northern  
port. The power of sale is exercisable by the  
Directorate under sub-section (7) of section  
3 of the Memorandum of Association of the  
Company. The section reads:—"To sell the  
undertaking of the Company or any part  
thereof for such consideration as the Com-  
pany may think fit and in particular for  
shares, debentures or securities of any other  
Company having objects altogether or in  
part similar to those of this Company."  
The lots involved in the proposed sale are

the two excellently situated sites for godown  
and wharves, viz., (a) the whole of the  
Old Dock property (with existing buildings)  
situated in Hongkew in the 6th section of  
the harbour, having an area of land measur-  
ing as per title deeds 20 mows; 27. 81. 9th,  
and a river frontage of 264 feet, with 22 feet  
depth of water at low water spring tides.  
(b) Part of the property between the Cos-  
mopolitan and International Docks, situated  
on Pootung side in the lower section of the  
harbour having an area of land of about 110  
mows, and a river frontage of 1,300 feet,  
with an average depth of water of about 25  
feet at low water spring tides. To the south  
of the property 108 houses, are  
erected suitable for Chinese employees.  
It has been known for some time that a  
"Syndicate" in Shanghai had been formed  
for the purpose of acquiring the two valuable  
sites. When the question was discussed not  
long since in the Model Settlement the  
*China Gazette* stated that the price to be paid  
for the Dock's property, if the scheme is  
ever carried out, would amount to about Tls.  
1,500,000, and that the development of the  
acquired land, i.e., bunding, wharves, god-  
owns, &c., would absorb another Tls.  
1,500,000. The capital of the new company  
would therefore be at least three million  
taels. To raise the required capital the  
scheme further provides that the present  
shareholders in the Dock Co. would have  
the option of obtaining a share in the  
new company, in lieu of receiving a re-  
turn in cash upon the sale of the Old  
Dock and the Pootung property, and that  
the balance of the capital required  
would be raised by the issue of debentures,  
the underwriting of which, it is al-  
leged, has been guaranteed by "the Bank."  
Although some doubt was raised as to the  
bona fides of the existence of the Syndicate,  
the meeting called for this-day forthrightly  
dissipates any idea that it was a purely  
nebulous scheme that was being talked about  
in Shanghai. As a matter of fact some of  
the largest holders of shares in the Company  
are believed to be closely identified with  
the movement for the forming of the new Wharf  
& Godown Company. It has been well-  
known that warehousing business in Shang-  
hai has been most profitable since the con-  
clusion of the war and offers special induc-  
ements for the starting of a new Company to  
meet the growing demands in that line  
of business in the North. As the Hongkew  
property of the Dock Co., now offered for  
sale, is believed to be the only available site  
in that locality suited to the business of a  
wharf and godown company, the new under-  
taking will be showing considerable fore-  
sight by acquiring this valuable property be-  
fore it is merged into the assets of some  
other existing concerns of a similar char-  
acter. Our special telegram makes no  
mention of the figure offered for the com-  
bined properties, but it is safe to say that,  
judging by former sales of land in the neigh-  
bourhood of the Hongkew dock, a sum of  
much over a million taels should be realizable  
for both the sites at Hongkew and  
Pootung.

## LOCAL AND GENERAL.

EXACTLY sixty-four years ago yesterday St.  
John's Cathedral in this City was dedicated.

SEVEN Europeans arrived this morning from  
home by the steamer *Indra Maru* to join the  
local police force.

TOMORROW, the 19th inst., is the anniversary  
of the great fire which laid Hongkong practi-  
cally in ruins in 1859.

THE F. and O. Company's steamer *Moo Tan*  
left London on 14th ult. with the following  
specie for Shanghai:—Bar silver, £590 0 0.

THE work of raising the s.s. *Kwongchow*,  
which was sunk off Kowloon during the dis-  
astrous typhoon a month ago to-day, was, accord-  
ing to the police, commenced last night.

THIS evening, at the Union Church Literary  
Club, Kennedy Road, there will be a debate  
on the following question:—"Should the  
destruction of non-criminals under any cir-  
cumstances be legalised?" To be opened by  
Mr. H. L. Garrett at 9 p.m. sharp. Mr. Frank  
Rowne will occupy the chair.

THE ships which go off of commission next  
year on the China Station are:—*Diadem*, Cap-  
tain Herbert W. Savory, M.V.O., and the *Flora*,  
Captain Hubert Grant Dalton, in March and  
July, respectively. The *Diadem* carried the  
Vice-Admiral's flag for some time prior to the  
arrival of the *King Alfred* on this station.

A JAVANESE monkey in the New York Zoo,  
that had been brought up in a fire-engine  
house, and noticed how the men used to attire  
themselves hastily and run out when a fire was  
called, surprised his keepers greatly recently.  
He rushed out, almost fully dressed, from the  
keepers' quarters, in trousers and waistcoat,  
collar and tie, all put on in the most fantastic  
fashion.

AN Indian named Ahamed Agast was made a  
defendant in a case heard before Mr. F. A.  
Hazland, at the Police Court this morning.  
The charge against him was that of bathing  
on the landing steps of Blake Pier in a nude  
condition at half past six o'clock last night.  
The charge was proved, and a fine of £5, or  
in default fourteen days' hard labour, was im-  
posed. He went to gaol.

To-day is the Hindu New Year Day, Sanival  
1903. According to custom all Indian firms on  
the last day of the old year change their books  
for a set of new ones to commence business  
with in the new year. Most of the Indian  
firms in the Colony have made preparations  
for the illumination of their business houses  
and residences to-night.

THE s.s. *Borneo* left Sandakan for Hongkong at  
10 p.m. on 17th inst. For the next few tips of  
the steamer there will be a new Captain, Cap-  
tain Sembill, who is a Lieutenant in the Im-  
perial German Naval Reserve, is leaving for two  
months' training in the Imperial Navy. He is  
most popular with all who have had the pleasure  
of meeting him and we wish him every success  
and a speedy return to s.s. *Borneo*.

ALTHOUGH the ship *Martin* has been com-  
missioned for survey service by Captain J. F.  
Parry for duty on the China Station, she is not  
yet ready for sea, a good deal of the internal  
arrangements having to be completed yet at  
Sheerness. It was expected that she would be  
completed early in October, after which she  
will go through the usual trials before leaving  
for Hongkong. Her refit will cost about  
£5,000.

CAPTAIN W. Roberts charged a ricksha con-  
ductor before Mr. F. A. Hazland, at the Police Court  
this morning, with refusing to accept hire  
yesterday. The conde pleaded guilty. The  
complainant said that he paid the defendant  
at about 3 o'clock yesterday afternoon. De-  
fendant was sitting in the ricksha near Thomas  
Hotel. He told the conde he wanted to go to  
Wanchai. The conde refused to go. A fine of  
£5 was imposed.

W. NG YAO, a conde, residing at No. 42,  
Centre Street, got into a quarrel with another  
of his clansmen at West Point, yesterday, over  
a woman, and settled the affair by laying out  
his opponent with a fighting-iron. Streaming  
with blood, which flowed free from the wound  
on his head, the conde lodged a complaint to  
the police and Wong was arrested. Taken  
before Mr. F. A. Hazland, at the Police Court,  
to-day, Wong was fined 100 for the assault  
and \$50 for being in possession of a fighting-  
iron without a police permit. He went in for  
six weeks.

AT about six o'clock last evening a Chinese  
man came to a very sad end by falling  
from a gang-plank into the street. He was  
employed in a matched at Shek-tong-tsu, and  
in order to enter or leave the matched it was  
necessary to cross a gang-plank, a few inches  
in width. Last evening the man was crossing  
the plank, lost his balance and fell into the street  
below, a distance of only eight feet. He landed  
on his head. The police at No. 7 Station were  
requested, but on arrival at the scene of the  
fatality they were informed that the unfortunate  
man died almost immediately after his fall. The  
body was removed to the morgue. In the  
doctor's opinion death was due to concussion  
of the brain.

BEING in unlawful possession of fourteen bales  
of yarn, valued at \$1,200, on the 16th inst.,  
was the charge preferred against one Chau  
Chin-sing, and four native brokers, by Inspectors  
Langley, of the Water Police Station, at the  
Police Court this morning. The four brokers  
were seen discharging the yarn from a junk,  
which was at anchor near the Kowloon wharf,  
wall, on to the shore, and they could not  
give an explanation as to where the yarn came  
from the police arrested them. At the station  
they said that Chau Chin-sing had employed  
them to get the yarn to Kowloon. A visit to  
To-kwa-wan by the police resulted in the  
arrest of that gentleman. The explanation, we  
understand, that the defendants tendered the  
Court was very vague, and Mr. F. A. Hazland  
fined them \$10 each.

## A LOVE TRAGEDY.

## YOUNG WOMAN TAKES POISON.

After being married for the short space of  
over four months, and thinking that her  
husband was in love with another woman, a  
young Chinese woman named Leung Yuen  
twenty-one years of age, and residing at No. 2,  
West Street, took an overdose of opium  
yesterday morning and died some minutes later.  
The woman's husband, a tallyman named  
Shek Su, first became acquainted with his wife  
in a house of doubtful character at Shek-tong-  
tsu. The acquaintance ripened in a love  
match, until finally he asked her to become his  
No. 1 concubine, he having a wife in the coun-  
try. He girl accepted the offer and went home  
to live with the tallyman.

They lived together for some little time until  
one evening at the commencement of this week  
the tallyman suggested to his concubine that  
he was going to a dinner at Shek-tong-tsu.  
Although she offered no objection to his going  
to the alleged dinner she did not approve of it.  
However that may be the tallyman went.

No sooner had he left the house than the  
woman, murmuring something, it was  
alleged, of gone to see another woman,  
packed her boxes and left the premises.  
Where she went to at the time was not known,  
but it afterward transpired that she left for  
Canton by the night steamer.

When the tallyman returned home from the  
dinner he discovered that his concubine had  
disappeared and no information as to her  
whereabouts could be gleaned from the amah.

Not knowing where she was to be found the  
tallyman remained silent over the matter  
and went to his work as usual, though a  
bit disturbed. Yesterday morning, however, the  
woman returned to the house, and as is natural  
the tallyman demanded an explanation of her  
conduct. She gave none, and it was reported a  
quarrel was opened in which she was badly  
beaten by her husband. She then left for work.

He was not at work for more than an hour  
when the amah came rushing up to him, telling  
him that his wife had poisoned herself. He  
found her presence in the house at once. When the  
tallyman got home he found the woman on an  
unconscious condition and she expired half an  
hour afterwards. The police was acquainted with  
the tragedy and the body of the woman was  
removed to the morgue, where a post-mortem  
examination was held.

## CRIMINAL SESSIONS.

## LARCENY AND FORGERY.

The October Criminal Sessions opened at  
the Supreme Court this morning, His Honour  
the Chief Justice presiding, when the Hon. Sir  
Henry Berkeley, K.C., Attorney-General, asked  
that the cases against Gidley and Ward be set  
for hearing next Tuesday. This was agreed to,  
and the special jury summoned for to-day  
were discharged and ordered to return on  
Tuesday next at 10 a.m.

The first case called was that of Tsang  
Fung, who was charged with (1) larceny of  
registered letters, and (2) forgery of chops.

The Hon. Sir Henry Berkeley, K.C., At-  
torney-General, instructed by Mr. G. F. Morrell,  
of Messrs. Denny and Bowley's office, Crown  
Solicitor, prosecuted, prisoner being unde-  
fended.

The following jurymen were empanelled:  
Messrs. Charles Schellenbach (foreman), Oscar  
Lohan Chinnit, William Ironside, Paul Karl  
Knyvett, Fintz Hesse, Lennox Godfrey Bird,  
and James Pearson. Prisoner pleaded not  
guilty.

The Hon. the Attorney-General said that the  
prisoner at the bar stood charged with stealing  
four registered letters, the property of the Post-  
master General, and with forging a certain  
chop to gain possession of such letters. Prisoner  
had formerly been employed at a shop  
named Fung Nam Sing. In September last  
four registered letters arrived for the man-  
aging partner of that firm, and were sent  
out in the usual way for delivery. The ad-  
dressee, however, could not be found and  
accordingly the letters were taken back to the  
Post Office, and transferred to the Post  
Reste department. A few days later the  
prisoner called at the post office and asked for  
the letters in question, when he was told by the  
clerk in charge that it would be necessary for  
him to find some responsible party to identify  
and guarantee him, as, of course, the postal  
authorities did not know him. The next day  
he returned and presented himself again and  
stated that the man who accompanied him was  
the managing partner of the Fung Kwong shop. This  
particular identification of the applicant for the  
letters appeared good, and the letters were  
handed over, the prisoner putting on the re-  
ceipt the Chinese characters for the addressee's  
name. On the 25th September, Kwong Fung,  
son, the real legal owner of the letters, applied  
to the post office for them, and was told they had  
already been called for and delivered, the chops  
for same being shown to him. These he at once  
pronounced to be forgeries. A report was  
made to the police and in their company the  
son of Kwong Fung went to prisoner's house  
in Queen's Road, and there found the four let-  
ters, and also one of the drafts which had been  
containing therein, while another draft on the  
firm was found in prisoner's pocket when  
searched at the police station.

Evidence in support of the above was adduced.  
The jury returned a verdict of guilty against  
the prisoner, who was thereupon sentenced to  
five years' imprisonment with hard labour on  
each count, the sentences to run concurrently.

## ROBBERY WITH VIOLENCE.

In the case the particulars of which have  
been fully recorded in these columns, the jury  
returned a verdict against the two prisoners,  
Liu Fat and Wong Sang Hing of guilty of  
robbery with violence, and they were each  
sentenced to five years' imprisonment with  
hard labour.

## ALLEGED GRAND LARCENY.

## A BANK WITHOUT COIN.

Chung Sang, a broker, residing at No.  
48, Graham Street, was arraigned on remand,  
before Mr. F. A. Hazland, at the Magistrate's  
Court this afternoon, on a charge of grand larceny.  
The complainant was Leung Yik Cheung. The  
defendant, who was defended by Mr. Otto  
Kong Sing, was alleged to have stolen from  
the complainant a deposit receipt made out on  
the 14th Chung Bank for \$4,000, on the 20th  
inst. last. The circumstances of the alleged  
larceny, as it is alleged, were to the effect  
that some time in August last the com-  
plainant had a visit from ten fellow vil-  
lagers. These villagers had never been in  
Hongkong before, and as they could not find  
their way about, and being desirous of getting  
to Victoria, B.C., as soon as they could, they  
approached the complainant to get them pas-  
sage tickets. Complainant asked defendant to  
assist him in the matter, saying that the villagers  
would each pay \$130 for their tickets, and as  
he could not take the tickets at the company's office  
at the rate of \$130 for each ticket, what profits  
were made in the transaction would be equally  
divided. Defendant agreed. On the 12th of  
August, as the story goes, the villagers handed  
to complainant \$4,300. This sum, they said,  
was to be put into a bank—the name of the  
bank they gave. The complainant, in com-  
pany with the defendant, went to the bank in  
question, but having his suspicions about that  
bank they left it and deposited \$4,000 in the  
Fu Chung Bank, for which they received in  
return a deposit note. This note com-  
plainant placed in an envelope and  
into his pocket. While in the bank premises,  
the report goes on, defendant asked com-  
plainant for the deposit note as he wanted to  
see it. The envelope containing the note was  
handed over, and it was stated, defendant was  
caught red-handed trying to substitute the real  
deposit note for a forged one. He was then  
given in charge. When the story was related  
to the police, we are informed, Sergeant  
Eamer, of the Detective Staff, was detailed to  
inquire into the matter and his first step was to  
interview the people at the first bank, the bank  
which complainant was suspicious of. There  
he discovered that the so-called "bank" had  
only two cash in its safe.

Evidence was called, and the case further  
adjourned.

NEWS was received at Shanghai on 13th inst.,  
announcing the death, at the Hankow Hospital,  
on the 12th, of Captain H. S. Sleeman, of the  
steamship *Albatross*. The deceased was a well-  
known China Coastier and had been in the  
China Merchants' employ for a great many  
years past, as were also several of his brothers.

## CANTON DAY BY DAY.

## HONGKONG TRADERS KIDNAPPED.

[From Our Own Correspondent.]

Canton, 17th October.  
Some time ago two employees of the branch  
office, at Wong Lin, of Ying Lee & Co., Hong-  
kong, were kidnapped by a gang of robbers,  
who demanded a ransom of \$5,000 for their  
release. Yesterday morning Major Wong,  
accompanied by a company of troops, pro-  
ceeded to Sha Hoi village, where they dis-  
covered the two captives and at the same time  
captured two of the miscreants. The Major  
at once communicated with the Company upon  
his discovery of the whereabouts of their  
employees.

## THE RAILWAY BRIDGE.

On the 12th inst., at a meeting of the Yue-  
nan Railway Co., held in the Company's office,  
the despatch from the Kwongchow Prefect in  
regard to the building of an iron bridge  
across the Pearl River from Canton to Ho-  
nam, was discussed, and it was finally de-  
cided to abandon the project. No the newly  
formed company will have the privilege of its  
construction.

[Saturday's contribution on this subject must  
have been burnt on the 17th inst.]

## JUNK PIKED.

On the 13th inst. a junk named  
*Shui Wo*, when on her usual voyage from Tau  
shui Hau to Canton, was attacked by a band  
of pirates, who boarded the vessel and made off  
with all the money and some valuable cargo  
thereon. The junk owner immediately reported  
the affair to the officials.

## THE LATA COMMODORES.

The Commodores Y and Lum, of the  
Naval Department, of Canton, who committed  
suicide, because they preferred death to being  
accused of embezzling the funds of the De-  
partment, has caused a sensation here. On  
hearing the news the Viceroy expressed de-  
regret at losing the services of two such able  
officers. The Viceroy did not intend to take any  
step in regard to complaints in the  
matter, but only detained Y to investigate  
whether the charge had any foundation. On  
hearing the news of the deaths of their hus-  
bands the wives of both commodores at-  
tempted suicide. Commodore Yau's wife  
succeeded, whilst Commodore Lum's wife  
was saved.

## THE SHAKER FIRE.

During the fire in Shaker Street, when the  
Mutual Stores caught fire, an Australian Chin-  
ese named Chau, jumped from the third floor  
of the building to the ground and fractured  
his skull. He was conveyed to the Canton  
Hospital in an unconscious state and died after  
a few hours without recovering consciousness.

## THE YUE-NAN RAILWAY.

PROPOSED REORGANIZATION  
OF ENGINEER-IN-CHIEF.

It is stated that the engineer-in-chief of the  
Yue-nan Railway Co. is dissatisfied with his  
present appointment. Upon his arrival in  
Canton he was taken ill and was unable, in  
consequence, to attend to matters relating to  
the railway. Latterly some friction arose  
between Mr. Kwong and certain officials  
directors of the Company, resulting in Mr.  
Kwong's intention to sever his connection with  
the undertaking.

## VICEROY SHUM'S PETITION

## TO THE THRONE.

## CANTON-WHAMPOA RAILWAY.

We translate the following from the *Chung  
Kwai Po*—

H.E. Viceroy Shum has sent a memorial to  
the Throne in which H.E. prays:—(1) That  
the Canton officials—civil, military and naval  
—be retained in the service of the Govern-  
ment as far as possible after his departure from  
Canton. (2) That the land and naval police be  
maintained at their present strength to arrest  
bad characters. (3) That the construction of  
the Canton-Wampoa Railway be pushed for-  
ward as quickly as possible.

## SPECIAL JURYMEN.

## NO EXEMPTIONS.

After the Jury had been empanelled at the  
Supreme Court this morning, to try the open-  
ing case of the present Criminal Sessions, His  
Honour the Chief Justice said that the Hon.  
the Attorney General had suggested that  
Tuesday next be appointed for the hearing of  
the cases of the King against Gidley and Ward,  
and so the gentlemen summoned to serve on  
the special jury to try those cases must return  
on that day. But before discharging them  
now he wished to say that he had received,  
and he might say as usual, through the  
Registrar of the Court, a large number of  
applications for exemption from serving on the  
special jury, for many and divers reasons,  
and he wanted to say that he had not the  
power to exempt anybody from performing the  
duty required of them by law, except for very  
much better reasons than any of those adduced  
by the present applicants. "Insufficiency of  
our staff" is quite insufficient reason and has  
nothing to do with the Court. Then the  
medical certificates—it was necessary for a  
medical certificate when produced as a bona  
fide reason for exemption to set forth that the  
person to whom the certificate relates is actually  
incapable of sitting on a jury, owing to some  
physical defect. "But how," continued His  
Honour, "can I accept a medical certificate  
sent to me to-day to certify that a jurymen  
will be unable to serve on Tuesday?" Such a  
certificate could not be accepted. In conclusion  
of his remarks, His Honour said that the neglect  
of one man to attend imposed his proper duty  
on another, who, perhaps, had better grounds  
for exemption, even if he had not applied for  
them, and that amounted to a shirking of their  
legal duty, and he therefore hoped that no  
more of these applications would be made,  
unless on bona fide grounds, as otherwise they  
could not be entertained.

## FOUR FRESH DIVISIONS.

Tokio, 17th October.

In connection with the projected reduction  
of the garrisons in Korea and Manchuria, it is  
learned that the authorities have practically de-  
cided to increase the Army itself by four divi-  
sions, bringing the total to twenty divisions,  
exclusive of Guards.

This will be effected by economy and various  
expedients in other directions.

## THE VOLUNTARY CAMP.

[From Our Special Correspondent.]

Stonecutters' Island, 18th October.

There was a good muster of men at the re-  
hearsal of King's Birthday Parade yesterday  
afternoon, who, no doubt, appreciated the change  
after the continuous heavy gun drills.

The whole Camp was in a state of excite-  
ment at about 20 minutes after "light a out," as  
the bugler sounded the fire alarm. In a mo-  
ment the men paraded near the dining mess, and  
some clad in khaki, but the majority in their  
night attire, who had just jiggled out of bed to  
join the ranks. They were promptly detailed  
to work at the buckets which had been filled  
with water at the stone pier, and there were  
rapidly passed on the scene of the supposed  
outbreak by men in two single files. The  
work was expeditiously accomplished and the  
officers ordered the men to return to their  
tents.

This morning the Artillery Companies were  
exercised with 15pdrs. and Maxims, the En-  
gineer Company going for musketry practice.

A sham fight is to take place in the New  
Territory on Saturday afternoon and the Royal  
West Kents will participate. The official guest  
night has been altered from Monday, the 22nd,  
to Saturday, the 20th inst. His Excellency the  
Governor will inspect the Camp in the  
evening and will dine with the officers.

## THE HONGKONG TYPHOON.

LONDON PRESS COMMENTS.

Hongkong has once more suffered from one of those devastating typhoons which periodically create havoc and destruction in the Colony. The present visitation has unfortunately been of an unusually severe character, wrecking or damaging a large number of ships, several of which belonged to the British China Squadron and the French fleet in the Far East, to say nothing of the damage done to smaller boats and fishing craft, and to property in the neighbourhood of the harbour. It is impossible as yet to give any trustworthy estimate of the loss of life, but the Governor of the Colony, Sir Matthew Nathan, in a report to the Colonial Office, gives reason for anticipation that at least among the Chinese population this will prove to have been immense. The loss of life amongst Europeans is comparatively small, but the deepest regret is felt at the news, which is now confirmed, that the Right Rev. J. C. Hoare, Bishop of Victoria, was amongst those who were drowned. The message in which His Majesty the King has expressed his deep regret at the destructive character of the storm will find a ready echo in all quarters. The special feature of this typhoon appears to have been its suddenness. As a rule there are certain barometric indications before the advent of the typhoon, and at Hongkong, as is well known, arrangements are made to give the alarm to the mariners in the harbour. For some reason, as yet unexplained, no notice, or a notice which was insufficient, was given of the storm, and hence the loss was greater than would otherwise have been the case. The Hongkong Observatory certainly seems to have failed on the present occasion, and it is already causing considerable public indignation. We note that the Governor, speaking in the Legislative Council, has announced his intention of appointing a committee to inquire into the matter. He added, however, that he was confident that the director of the Observatory was not to blame. In any event the utmost sympathy will everywhere be felt for the Colony in the face of a disaster which the greatest precautions and foresight could at best only partially mitigate.

## THE CANTON RIVER TRAFFIC.

TANTOZE STEAMER EXPECTED.

As stated by us the other day it was the intention to replace the s.s. *Hankow* by a steamer plying on the Yangtze River, we now learn that one of the large vessels engaged on the northern run had actually started for Hongkong and is expected to arrive some time tomorrow.

The s.s. *Hankow* will probably be docked for repairs in the meantime we hear that she is being cleared of all rubbish, &c. to admit of an examination to ascertain the extent of damage with a view to specifications being drawn up for estimate of cost of repairs.

A curious find is reported to have been made on board the *Hankow* of over a thousand dollars worth of copper coins.

## THE KWANGSI RAILWAY.

[From a Correspondent.]

Canton, 16th October.

It is stated that a wealthy merchant of Wuchow went to Kwai Lum, the capital of the Kwangsi Province, and has since said that the Kwangsi Railway Company will not do well, or be a success if the Kwong-Tung Province is not asked to take shares in it, as it appears to him that money is very tight in Kwangsi, and moreover rice is not allowed to be exported from the province, so that it is very difficult to induce the people to see the advantage of such a railway, and so take up shares just now. However, the chairman, Mr. Chow, and the vice-president, Mr. Mok, it is understood, replied to the effect that they must first try their best to get the Kwangsi people to take up as many shares as possible themselves, and should they not be successful in this, or the amount of shares taken up by the people be insufficient they will then have to consider what steps they will then take, as the Elders of the province had told them that they did not intend to let the people of other provinces take up a big number of shares, as possibly they might interfere with their business.

## THE S.S. "KINSHAN."

NOT YET RE-FLAGGED.

A rumour gained currency in the city this forenoon that the s.s. *Kinshan* had been re-flagged early this morning. Later in the day, however, authentic reports reached Hongkong to the effect that, although she is still on the beach, the *Kinshan* is stated to have settled more down in the water, rendering the next attempt at pulling her off far easier than the previous efforts. At 5.15 this evening the *R. B. Cocks* will be leaving again for Brothers' Point, and it is expected that she will again attempt to pull off the *Kinshan* to-night. The dredger *Canton River* returned yesterday.

## NEW LAW OF EVIDENCE.

PRISONERS MAY TESTIFY.

When His Honour the Chief Justice took his seat this morning at the opening of the Criminal Sessions, at the Supreme Court, he said he wanted to make a few remarks, "more especially to the gentlemen who represent the Press" of the Colony, to draw attention, through them, to the fact that a new Ordinance had lately been passed, relating to the Law of Evidence, of which it was important that all Chinese should be made aware, and he hoped that the Chinese newspapers would publish a translation, paraphrased, simply so that all could understand the terms of this new Ordinance, as it was altogether too complicated for the Court to explain to prisoners. It is most important for prisoners to know that they may give evidence in their own behalf, subject only, of course, to the right of the Attorney-General or the Prosecuting Counsel, for the time being, to cross-examine them, and this cannot be too widely known.

## THE WEATHER.

The following report is from Mr. F. G. Figg, First Assistant of the Hongkong Observatory:—On the 17th at 11.40 a.m.—The barometer has fallen rapidly over E. Japan, and a slight fall has also taken place over the Philippines. Pressure has increased elsewhere, particularly over the E. and N. coasts of China.

The depression in the North is moving Eastwards in the N. part of the Sea of Japan. Pressure remains low over the Pacific to the E. of Luzon.

The anticyclonic area is still central over the continent to the North of the Yangtze, and strong monsoon, of gale force, in the Formosa Channel, will continue over the whole of the China Coast. N. and N.E. strong winds to gales, will prevail also over the N. part of the China Sea.

## FORECAST.

1.—Hongkong and neighbourhood, N.E. winds, fresh; fine.  
2.—Formosa Channel, N.E. gales.  
3.—South coast of China between Hongkong and Lamock, N.E. winds, strong.  
4.—South coast of China between Hongkong and Hainan, same as No. 3.

We spend £16,000,000 a year on the Navy. This is a million more than the combined expenditure of France, Russia, and Germany.

## THE ITALIAN CONVENT.

FANCY SALE.

Once again the Rev. Mother and Sisters of the Italian Convent invite their friends and patrons to come and visit their annual exhibition and sale of the Convent's product of the past year. Year after year, with noble self-denial, self-sacrifice, and divine patience, these good people carry on an immense work of charity, and do a very vast amount of good for the community, by taking in the waifs and strays, the deserted orphans, the aged poor, and clothing, housing and feeding them, while they teach those old enough, or not too old, to learn, besides the usual three R's and a bit over, most useful ways of earning their living, by making lace, and embroideries of such qualities as do more than compare favourably with anything of the sort that comes out of Europe. And it is for this reason that once a year they hold these little exhibitions and sales of their work—not so much for the sake of the possible immediate sales, but for the advantage they hope may, as it should, accrue, by affording the public an opportunity of inspecting the specimens of work done by the Sisters and the orphan inmates, with a view to those requiring such articles, and knowing they can be promptly "made to order," placing their orders where they do so much real good. All through the sale was only supposed to commence to-day, His Excellency the Governor, Sir Matthew Nathan, K.C.M.G., accompanied by Captain Colman, A.D.C., visited the convent last night, and to the delight of the Rev. Mother and the Sisters, paid quite a long visit, in the course of which he made several purchases from the stock of work laid out, but as the articles laid out were chiefly exhibited as samples, His Excellency left his purchases to remain on view until the end of the exhibition, as also did several others who made purchases this morning. Without exception the entire work exposed for inspection and sale is the work of the inmates of the convent, and the articles displayed show that absolutely nothing in the way of delicate lace and embroideries is beyond the capabilities of the light-fingered workers who have been taught all they know, under the supervision of the work itself speaking volumes for the patient training which now enables even the youngest inmate to the institution, to make a piece of lace, or produce a notion of embroidery, such as is seldom seen outside of the most expensive shops in the larger western cities. For the next three days the large hall at the Italian Convent will be a very paradise for the fair sex; for fastidious indeed must she be who finds not there something to tempt her among the many, varied and novel samples of embroidery, lace, and needlework, or if they cannot secure the article they see, for the reason that it has been already sold, the order-book is at hand and a replica will be ready in no time. Besides the underclothing for ladies and children, the display includes some beautiful little frocks for girls, coats for boys, and quantities of finest and most delicate table linen. There is also a large display of cushions, in some of which a very novel feature is introduced. On the front square is embroidered a basket, tied around the handles with real ribbons, while instead of having the flowers in the basket also embroidered they are arranged from artificial bunches, and sewn on in such a way as to give them the appearance of drooping naturally over the basket. The effect is remarkably pleasing, but we shudder to think what our hostess would say if on some occasion of a call, we were inadvertently in a p.d. and rest our portly persons against that basket of flowers! But the entire production of the busy fingers, to every inch, is marked by delicacy and finish, while the taste in design is truly remarkable. Another feature marking the work of the Convent is the extremely low figure at which all this daintiness is marketed, a figure that to the uninitiated mind would appear barely sufficient to cover the cost of the materials used.

To come to the more practical side of the question and show how much this institution is deserving of the support of the communities of all nationalities in this Colony, we may mention that in the Italian Convent at this present time there are over five hundred women and children, for the housing, clothing and feeding of whom, day by day, the Rev. Mother and the good Sisters are voluntarily responsible. Besides this there is the teaching to be done, not only the teaching of the ordinary school curriculum, but the training of the fingers, young and old, to weave the web which we and by develops into those yards of lace of cobweb texture, such as only the most delicate and light-fingered could produce. Year in and year out the average number of inmates remains pretty much the same, and the few who runs may read what a vast responsibility, therefore, rests upon the shoulders of the Sisters of the Convent. Here, in their various apartments, are to be found blind, lame, halt, maimed, deformed and insane, among all of whom the majority are helpless orphans. It is an interesting though it is also a very pathetic sight, to see the rows of girls seated before their pillows, with bobbins busily flying, and the lengths of lace growing visibly inch by inch, under their nimble fingers. One notices that as one enters no notice is taken—the workers go steadily, almost joyfully, into their work, and then the pathos enters into the situation, for the Sister informs us that these girls are blind—blind—and yet producing such beautiful work, which their eyes will never see, and only by the words of praise of those who can see will they ever know that their work is beautiful. Another feature strikes one, as one passes down the corridors, and through the rooms of the Convent, and that is that whenever a Sister appears in view the scholars show keen pleasure, and flock around her like pigeons—which goes to show that "kindness" is the "rod of iron" with which the young people of this Convent are ruled. It is no wonder that the institution is always full, and that they have had to build a wing, and a new chapel, the old one being too small to accommodate the throng of workers; for none are refused admission here, so only they are poor and needy, and unable to battle with the cold outside world. And thus it is that orphans of almost every nationality are to be found under the roof of the great and good institution—and now comes an opportunity for the charity inclined to flock to the Convent, not only to purchase the work offered for sale, but to place orders with the Sisters for their household requirements; for, they are ready to undertake, at short notice, all kinds of work, personal or domestic, and this they do with an exquisite taste and finish, at prices but little more than half the ruling market rates. Aside from the purpose of disposing of the articles now offered for sale, the Sisters have another object in view, and that is to let the visitors see for themselves specimens of the work they are able to undertake, as well as the girls doing such work before them. Half an hour's visit of inspection to the Convent will suffice to convince one and all that this institution is deserving of a full measure of public support from all who are able to extend it. We may mention that if any goods are left on Saturday they will be raffled for.

TO THE OWNERS OF DOMESTIC BUILDINGS.

TAKE NOTICE that under No. 5 of the DOMESTIC CLEANLINESS and VENTILATION BYE-LAWS (as amended), every Domestic Building or part of such Building within the CENTRAL DIVISION of the CITY OF HONGKONG and the WESTERN DIVISION OF KAU-LUNG occupied by members of more than one family must be CLEANSED and LIMEWASHED THROUGHOUT by the owner during the months of September and October.

N.B.—The word "Throughout" used in this notice means that the Houses should be Limewashed in respect of all the Walls of each Room and Staircase, all Cubicle Partitions, Stair Casings and Stair Linings, all Ceilings and the Undersides of Roofs both in Main Buildings, Offices and Servants' Quarters and inclusive of Verandahs.

The Back Yard should have its containing Walls Limewashed up to the level of the first floor.  
Carved, Painted or Polished Woodwork in good condition, however, need not be Limewashed but must be Cleaned.  
The Central Division of the City lies between Gilman Street and Peel Street on the East and Tank Lane and Cleverly Street on the West. Kau-lung is divided into the Eastern and Western Divisions by Robinson Road and a straight line drawn from the north end thereof through the Yau-mai-lai service-reservoir to the northern boundary of Kau-lung.

## Intimation.

## THE HONGKONG TELEGRAPH.

1, ICE HOUSE ROAD,  
HONGKONG.

CABLE ADDRESS:—Telegraph, Hongkong.

THE leading English Newspaper in China  
Also widely circulated in Japan, Cochinchina, Ceylon, India and the Far East generally.

A daily newspaper with weekly edition published for despatch by the homeward mail. The daily is recommended as more generally suitable, except for subscribers in Europe or America.

A special feature is made of full and accurate reports of local occurrences, and of matters of general interest.

## ADVERTISING DEPARTMENT.

The Hongkong Telegraph is the best medium for advertising in China. It circulates largely among all classes of the community, is the largest daily newspaper and has a wider circulation than any journal in the Far East.

Special attention given to effectively displaying advertisements.

The type used as a standard for setting advertisements is similar to this, unless we are instructed to display the advertisement, when any effective style of type will be adopted. This standard runs exactly eight lines to the inch, and about eight words to the line.

## DOMESTIC OCCURRENCES.

Notices of Births, Deaths, and Marriages.  
Each insertion in the Daily and Weekly.

## CONTRACT ADVERTISEMENTS.

Special Rates for standing advertisements can be ascertained from the Manager.

pay £3,000 out of this £10,000 when you receive this sum on your wedding day—of course, no money, no commission? I should require you to write to me a letter to that effect, which letter would be strictly private—"entre nous"—and returned to you when our transaction was ended. I trust this arrangement will be considered perfectly and strictly confidential. The lady could be introduced at my house by appointment, and must not know that a commission will be paid. The Hon. Mr. A., who had no personal acquaintance with the writer of the letter, was at first disposed to treat it as a hoax, but he found from Capt. R. that the letter was written in good faith, and so he determined to follow it up.

He made an appointment, to satisfy his curiosity, but the interview carried matters very little further, as the "broker" would not give any definite information till the Hon. Mr. A. had signed an agreement on the lines laid down in her letter.

NO MARRIAGE, NO COMMISSION.  
On 7 Aug., after a little correspondence, the lady broker wrote another letter to the Hon. Mr. A., in which she said, "I sincerely hope to carry out our little arrangement and also cement our future friendship," and asked Mr. A. to copy, and return to her, a draft agreement in these terms:

Dear Mrs. — In the event of my marrying through your introduction and of my receiving on such marriage the sum of £10,000 (ten thousand pounds) for myself, I agree to pay you out of that sum, as and when received, the sum of three thousand pounds (£3,000) by way of commission for such introduction leading to marriage, but it must be clearly understood that the introduction is through your nominees, the lady in question is to have a fortune of £3,000 (three thousand) a year in her own right, and to pay me for myself ten thousand pounds, the £10,000 to be paid over to my solicitors, Messrs. —, in the presence of your solicitor, and the sum of £3,000 deducted on the morning of the marriage and handed to you or your nominees. No marriage, no commission. All correspondence to be returned on both sides. (Signed)

Mr. A. executed the agreement, and awaited the introduction.

ANOTHER NEGOTIATION.  
But instead of an introduction he got the following letter:

8 Sept., 1902.

Dear Mr. A.,—I want to get you settled first, then I want you to bring to me Lord — (a well-known peer.—Editor "Truth"), as I know a girl for him, £250,000 and two properties of her own, age 20, very pretty. She is the one I told you about, and she requires a coronet.

I am quite willing to give you a share of the commission—"entre nous, strictly private"—as it would never do for society to know of our arrangement. If you care to call let me know, and come Sunday, four o'clock.—Very sincerely yours,

The letter of 7 Aug.—had revealed by inference, that the "broker" had a partner; this next letter from her marked another advance in her dealings, for, having secured Mr. A. as one of her "eligibles," she proposed to enlist him, remarks "Truth," as a tout for further business!

## SHE WANTS A PEER.

The introduction of the Hon. Mr. A. to the lady who was prepared to give away £10,000 had taken place meanwhile, and by 4 Oct. the broker became anxious to know how affairs were progressing, for on that date she wrote:

Dear V. A.,—I am glad you are pleased with the little widow. You must not now let the grass grow under your feet. The matter lies in your hands.

Do you mind coming to — to-morrow? I hope you will hear from R. — to-morrow, I am very anxious. I want you to be kind enough to write at once to Lord — and tell him you know of a charming woman, richer than your little widow even, for him.

I want you to bring him to my house as quickly as possible, as I have this lady almost handy, and want to make my arrangements with the man. She wants a peer. I will arrange your commission when I see you. Please see to this at once. I have kept my promise, and your little lady comes up to your expectations, so now you must help me in this, please.—I remain, very sincerely yours.—The interview so foreshadowed took place.

The Hon. Mr. A. had professed himself satisfied with what had been done on his behalf, and, with a view of still further drawing this society marriage broker, had hinted that he might be able to assist her in the direction she desired.

## COMMISSION ON FRENCH BUSINESS.

Accordingly, he received from her this general retainer:

Dear Mr. A.,—I herewith agree to pay you the third of any sum I receive as my share of commission for any marriage I arrange, provided you introduce the would-be bridegroom to me and a marriage follows. Of course, it is understood that no marriage no commission and that the gentleman is introduced by you to me first.—Very truly yours,

The Hon. Mr. A. felt that he had satisfied his curiosity, and, as he never had the slightest desire to purchase a wife, he determined to let the subject drop.

## AN INTERESTING LETTER.

But before the correspondence closed he received one more letter, of a very interesting nature. I tentatively, "Truth" explains that Mr. A. had drawn upon his imagination in suggesting certain likely clients.

In this letter, which bears the date 25 Oct., the writer says:

Could you not write to Lord—asking him if he would like to marry a rich, very rich, wife, as the lady I know has more money than your little widow, £8,000 to £10,000 a year, but is a little older. If he says yes (and you told me you thought he would jump at it), bring him round to me as soon as ever possible. Please oblige me in this, as the lady will be in town very soon.

This closed the correspondence.
